Art Unit: 3662

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-19, 22, and 23 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Lines 7-8 of independent claim 1 are indefinite and unclear in context in that the phrase "the micromirror matrix unit operable to be set in at least a first and a second state" fails to state clearly and definitely that the named "micromirror matrix unit" is indeed "set" in the recited states. The phrase "to be set" is potential language.

On line 3 of independent claim 1, the use of the word "can" makes the claim indefinite and unclear in that can is potential language, causing the following verb ("reach" at the beginning of line 4) to express potential action, rather than claiming the action of reaching clearly and definitely.

On line 2 of dependent claim 2, the phrase "arranged to be positioned" is indefinite and unclear in context in that it fails to claim the positioning clearly and definitely.

On line 7 of independent claim 22, the phrase "operable to be set" is indefinite and unclear in context for the same reasons as discussed above with respect to the use of the same phrase in claim 1.

Dependent claims 2-19 are unclear at least in that they are dependent from unclear independent claim 1. Dependent claim 23 is unclear at least in that it is dependent from unclear independent claim 22.

3. Claims 1 and 22 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
4. Claims 2-19 and 23 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bernarr E. Gregory whose telephone number is (571) 272-6972. The examiner can normally be reached on weekdays from 7:30 AM to 4:00 PM.
